

HATTELAND™

PRESS RELEASE

Jakob Hatteland Display AS proudly announces the introduction of a completely new and sophisticated product range for maritime applications during the NorShipping 2005, Oslo.

MMDII for Displays and
MMCII for Panel-Computers

is a new concept based on extensive maritime experience joined with the obvious need for highly sophisticated design. These new products fulfill the functional requirements for industrial applications. Combined with an outstanding appearance they offer highest flexibility. **Design meets Functionality !**

MMDII
MMCII

K N O W L E D G E - Q U A L I T Y - E C O N O M Y

KEY FEATURES

- Products will be IEC60945 tested and approved by major classification societies.
- Slimmest possible design with a straight and sober surface.
- Backpack functioning as the detachable "intelligence" of the product, therefore it is easily upgradable and serviceable.
- Different Screen sizes from 12in to 19in, additional sizes soon to come.
- Optical bonding technology to reduce reflectance to a minimum while enhancing the optical performance drastically.

This product range will be available in addition to the existing MMD-Displays, MMC-Panel-Computers and stand-alone computers and 19in rack computers, JHD is now expanding its product offerings towards the worldwide maritime market.

ABOUT JAKOB HATTELAND DISPLAY

Jakob Hatteland Display AS (JHD) is a fully owned Norwegian company, with branch offices in Oslo, Germany and USA. Since the start in 1987, the company has been involved in the maritime market. JHD develops and manufactures a complete range of high quality and type approved products. JHD is today a major and leading supplier to the different maritime, naval and industrial markets.
